DOWN LOOKS LIKE UP

(INTRO)

(VERSE)

I

You told me you loved, you need me and held me through the night
You whispered we're soul mates, for the rest of our lives
All that stuff you said, why, why feed me all those lies
Why did you go, my mind is blown, now you're out of my life.

(CHORUS]

Now I'm so down, that down looks like up.
Now I'm so down, that down looks like up.

(VERSE)

The pain in my heart so bad, please just give me some relief
You through me in a hole took my soul and set me free
Please please please come back to me, I feel like a fool
The sad sad thing I'm still, so crazy in love with you

(CHORUS)

Now I'm so down, that down looks like up.
Now I'm so down, that down looks like up.

(BREAK)(REPEAT 4 TIMES)
